COMPANY DIRECTORY

Second Half 2024 | DRAFT — INTERNAL USE

Compiled by HealthTech Insights SARL for internal evaluation. Data sourced from public filings, press releases, and third-party databases. Accuracy not guaranteed. Fields may be incomplete. Do not redistribute. Formatting generated automatically — some entries may appear truncated or re-ordered due to ingestion pipeline variations. See appendix for methodology notes (not included in this excerpt).

Sanofi S.A.

Sector/Industry: Pharmaceuticals, Healthcare, Life Sciences

HQ: 54 rue La Boétie, 75008 Paris, France

Headcount (approx.) 91,000 employees worldwide

Revenue: EUR 43 billion (FY 2023, IFRS reported)

Sanofi is a global pharmaceutical & healthcare company headquartered in Paris. Core therapeutic areas include immunology, oncology, rare diseases, and vaccines (Sanofi Pasteur). The company operates extensive R&D facilities across France (Vitry-sur-Seine, Montpellier, Strasbourg) and internationally.

REGULATORY NOTES:

- Phase III clinical trials (multiple active programs)
- GxP validation requirements across manufacturing sites
- 21 CFR Part 11 compliance (electronic records/signatures)
- EMA/ANSM oversight; subject to GDPR + HDS requirements
- CSV (Computer System Validation) mandatory for production systems

[INTERNAL SCORING: A+ // priority target // decision-maker TBD]

Les Laboratoires Servier

Annual Revenue: approx. 5.9 billion EUR

Employees: ~21,000

Type: Pharmaceutical (private, family-owned group)

Headquarters: Suresnes (Hauts-de-Seine), near Paris

Servier is the second-largest French pharmaceutical group. The company is undergoing a significant digital transformation initiative, investing in data science, AI-driven drug discovery, and cloud migration. They are actively hiring data scientists, ML engineers, and IT consultants for transformation programs. Therapeutic focus: cardiology, oncology, neuropsychiatry, immuno-inflammation, diabetes.

bioMérieux S.A.

Industry In Vitro Diagnostics (IVD), Microbiology, Clinical Diagnostics
Locations: Lyon (HQ — Marcy-l'Étoile), Grenoble, La Balme-les-Grottes, + international
Employees | ~14,000
Revenue (2023) | EUR 3.7 billion
Listed | Euronext Paris (BIM)
Founded | 1963 (Mérieux family)

bioMérieux specializes in in vitro diagnostics — systems and reagents for clinical and industrial microbiology. Regulatory environment is intense: facing significant compliance pressure from EU MDR (Medical Device Regulation) and IVDR (In Vitro Diagnostic Regulation) transition deadlines. This drives demand for regulatory affairs consultants, quality system overhauls, and validation/verification projects.
